DUREPOX HARDENER

Description	A clear colourless Aliphatic Polyisocyanate resin solution used as the hardener component for Durepox Primer, Durepox HP Clear and DTM. This hardener is designed to reduce critical recoat time, increase dry time and improve chemical resistance.	
i		
Products	Product Type:	Aliphatic Polyisocyanate Resin
	Colour:	Clear
	Pot Life:	N/A
	Induction Time:	N/A
	Density:	01.051 kg/L
	Recommended DFT:	N/A
	Theoretical Coverage:	N/A
Properties	VOC:	340 g/L
	Volume Solids:	66% (non catalysed)
(-~)	Recoat-ability:	N/A
	Dry Time @ 20°C:	N/A
Directions For	Mixing Ratio:	4:1 4 parts Durepox Primer
Use		(Volume) to 1 part Durepox Hardener
Use	Thinning:	(Volume) to 1 part Durepox Hardener
Use	<u>Precautions:</u> When ope possible. The life of the immediately after use.	(Volume) to 1 part Durepox Hardener ned the contents of Durepox Hardener should be used as soon as content will be extended provided the screw cap is replaced firmly Excessive moisture contamination will cause the contents to foam urepox Hardener unsuitable for use.
	<u>Precautions:</u> When ope possible. The life of the immediately after use. and/or gel rendering Do	ned the contents of Durepox Hardener should be used as soon as content will be extended provided the screw cap is replaced firmly Excessive moisture contamination will cause the contents to foam
Note	<u>Precautions:</u> When ope possible. The life of the immediately after use. and/or gel rendering Do	ned the contents of Durepox Hardener should be used as soon as content will be extended provided the screw cap is replaced firmly Excessive moisture contamination will cause the contents to foam urepox Hardener unsuitable for use. n refer to Safety Data Sheet (SDS). Contains Isocyanates, avoid
Note	<u>Precautions:</u> When ope possible.
